DESCRIPTION

The FBT CANTO 5T series speakers feature lightweight, gas-injected polypropylene enclosures. Available in black or white finish, the FBT CANTO 5T provides fixed installations with an elegant design that blends into any decor. The FBT CANTO 5T is a two-way design incorporating a 5" coaxial low-frequency woofer with a 1.5" voice coil and a 1" high-frequency driver with a 1" voice coil, coupled to 90° dispersion. The internal crossover is at a fixed frequency of 3kHz; with a frequency range of 80Hz to 20kHz, the FBT CANTO 5T provides high fidelity sound for both speech and music applications with a maximum SPL of 117dB. The FBT CANTO 5T incorporates a switchable 70V/100V transformer with a power selector from 7.5W to 60W and low impedance connection (16 Ohm). The rear panel features a terminal block IN & through for bare wire connection. 4 anchor positions at the rear of the cabinet allow the use of a horizontally and vertically adjustable wall/ceiling stand.
